**Exhibition Judge: Julie Dickover**

Julie Dickover is Director of the Crisp-Ellert Art Museum (CEAM) at Flagler College in Saint Augustine, Florida. Since 2010, she has organized solo exhibitions and commissioned new works by regional, national, and international artists for CEAM. In the fall of 2016, Dickover initiated the CEAM Artist Residency at Flagler College. Since that time, CEAM has hosted internationally known artists from diverse disciplines, including Olivia Block, Staci Bu Shea, Jamilah Sabur, Sky Hopinka, Christine Sun Kim, and Wendy Red Star.

Prior to living in Northeast Florida, Dickover lived in Los Angeles where she was Associate Registrar at the Hammer Museum at UCLA from 2003 to 2010, and Associate Director of the Robert Berman Gallery in Santa Monica from 2000 to 2003. She received her B.A. in Art History from Lewis and Clark College in Portland, Oregon in 1998, with a concentration in Contemporary Art. Dickover is an active member of the American Alliance of Museums, the Association of Academic Museums and Galleries, and holds the position of Treasurer on the Board of Directors for the Art Galleries of St. Augustine.

**Judge's Statement:**

For an artist who might traditionally make larger pieces, creating something that is small in scale may require a rethinking of the way they construct their work, and encourage experimentation with materials, composition, or a conceptual idea. Additionally, when working on a small scale, small gestures can make a big impact. It is those small gestures that solicit a closer, more intimate observation from the viewer.

It is precisely this close observation that I find so deeply gratifying, and why it was such a privilege to judge the Miniatures exhibition this month. The works I chose to be included in this exhibition are diverse. They range from representational to abstract painting and drawing in a wide variety of mediums such as oil, watercolor, and encaustic; photography; mixed media works that include printmaking and found objects; glass; ceramic; metal; and textiles/fiber. Choosing the award winners was difficult, but ultimately, I feel that their work reflects a cross-section of the wide-ranging submissions as a whole.

Each of these works resonates with both subtle and not-so-subtle ways, and are wonderfully reflective of the artists in this area who make up the heart of our thriving arts community.
